Biography

I have worked in the South Texas ISD since 1999 in many different capacities. As I was making my way through college (UTPA), I was serving as a substitute teacher and then eventually became a Teacher Aide in the gymnasium and also in the support services. I also spent one year as the Alternative Education Placement Teacher for our district until becoming a Physical Education Teacher. Taking part in all of these roles throughout the years has really made me appreciate each and every individual student and what they bring to our STISD family.
