

Heard on **zoom**

Here are some of the best things
we heard on Zoom recently!

1st Grade at Fearn

While I was reading a story to students on Zoom, one of my first graders asked if I could show the picture again because his little brother missed it.

When I did, I realized that there were two extra little ones sitting with him listening to the story!

Forensic Science Class at WAHS

We had a Zoom visit from WAHS alumnus and APD Forensic Evidence Technician, Officer David Adams.

In this time when we're all so busy and things aren't what we're used to, it was so appreciated that Officer Adams was able to take two hours out of his day to connect with our Forensics juniors and seniors. Not only did he share some serious and funny evidence stories, but he also was able to lay out the steps to follow if any of the students are interested in a career in law enforcement and/or forensics!

Hope D. Wall School

I have seen students and families working SO hard and having SO much fun during our morning meeting!

It is amazing to see not only my students, but their families enjoying our morning meeting every day!

4th Grade at Hall

At the end of the day, as everyone was logging off Zoom, one girl said I wish it was just us every time!

My heart overflowed!

Student Services at Jewel

When having a student add our meeting time together, he chose a unique way of writing it in his calendar. I asked him if that's how he would be remember what that means. He sincerely said, "of course I'll remember, all my teachers have a special place in my heart, including you!"
