

# *Our Culture*

1

Our foundation is education, individual development, and service to others. We believe it, we promote it, and we live it every day.

2

Our students, teachers, and staff are what make our school great. We respect and trust each other, and communicate openly.

3

Our students' development is ALL of our responsibility. We are invested in EACH student's success, and when they succeed, we succeed.

4

Our commitment to student/individual development is evident in everything we do, and our desire for continuous improvement is what drives our growth as individuals, as a team, and as a school.
