

Setting Up Your Child's Chromebook

Welcome to the new school year! We want you to feel comfortable on your student's Chromebook. Before we begin remote learning, take some time to get familiar with the device your family will be using. Click on any of the blue links to see the resources.

- **Charge** the Chromebook fully. Find a safe place for your child to store and charge the Chromebook when the school day ends. 
- Locate your **wireless network** information. Depending on how your network is configured, you may need a password handy. You will need to connect your Chromebook to Wifi to use it. 
- Use these resources to get you started:
 - [Simulator](#): Google has created this cool simulator to let you practice setting up a Chromebook.
 - Learn about using the [Touchpad](#) to learn more about dragging and clicking.
 - Watch this [Video Tutorial](#) from Google
- Explore Google's [How to Chromebook Playlist](#) to learn cool tricks for using the Chromebook
- [Common Sense Media](#) offers wonderful tips for at-home learning
