Indoor Air Quality

Faribault Public Schools has an indoor air quality management plan. The management plan outlines specific policies and procedures that will be used in the district to address indoor air quality issues. Several staff members were involved in the development of the district indoor air quality management plan.

If you have any questions concerning indoor air quality, or would like to use the EPA tools for Schools checklists, please contact the district indoor air quality coordinator:

Kain Smith
Director of Buildings and Grounds
