

An aerial photograph of the Thurston Middle School campus. The school buildings are a mix of modern and traditional styles, with some featuring circular or octagonal roof structures. A large parking lot is visible to the left of the main building complex. To the right, there is a blue-surfaced basketball court and a green baseball field. The school is situated on a hillside with dry, brownish vegetation. In the background, the blue ocean is visible under a clear sky.

Acoustic Panel Composition
 Armstrong, Invisacoustics 'White'
 Individual Panel Size 2' x 4'
 Overall Panel Size 8' x 12'
 Direct Attach
 NRC 0.75

Roof Composition - Alternative 1
 Asphalt Roof Shingle
 Rigid Insulation (R11)
 (E) 1/2" Plywood
 (E) T&G
 2 x 8 Rafters @ 24"
 Batt Insulation between joists
 5/8" Gypsum Board
 Surface Attached Invisacoustic
Provides sound attenuation, gives the space more volume and is a cleaner design.
