

Congratulations Emerson!!!!

### \$500 Flight Night STEM Innovator Award

We are so excited to announce that a \$500 Flight Night STEM Innovator Award was given to Emerson Elementary – A Public Montessori School, through the Tulsa Regional STEM Alliance, to introduce Drone Technology to grades PreK-5th. Our Emerson families will be involved in the lessons and discussions of career opportunities that utilize Drone Technology and the appropriate use of Drones.

This funding will allow for the purchase of additional drones to teach the assembly, programming and safe flying skills.
