

FROM GOW TO COLLEGE

Getting our students to and through college

At The Gow School, our College Advising Center puts its emphasis on student empowerment. In the process, students learn to be responsible and take charge of deadlines and documents. Additionally the use of family members and our staff resources are encouraged. This approach gives them ownership of the process and a sense of control over their destinies.

WHAT WE DO:

- Weekly individual meetings with our students starting their junior year
- Frequent and personal communication with parents throughout the process
- Update Educational Psychological Evaluations when needed
- Accommodation letters written by our in house clinician.

WHAT THEY GAIN BEYOND THE ACCEPTANCE:

- Time management skills
- Self advocacy both in and out of the classroom
- Independence
- Activities resume
- Hands-on experience with Assistive Technology
