

My Google Drive Assignment doesn't show up or won't submit in Schoology:

Do you get an error message when you attempt to submit a document to Schoology?

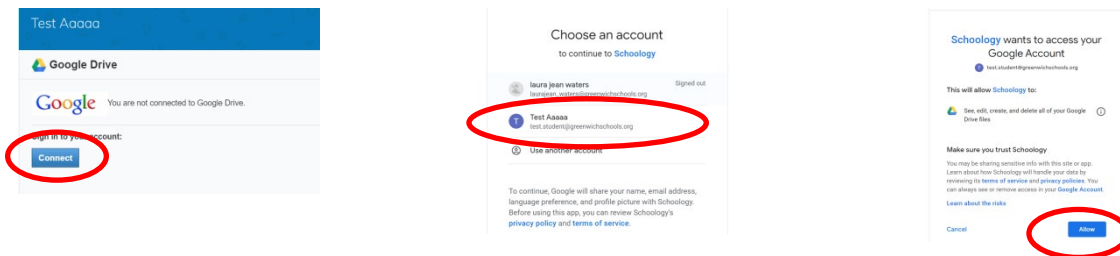

You need to reconnect your Google Drive. Click ok on the error message and then click "Nevermind." (Even if you can see the document!!)

Click the "Click Here" next to the "Can't see your document?" in the upper right corner of the screen.

When prompted, Click "Connect" to Google Drive. Choose your email account and then Allow Schoology to access your Google Account

Try submitting to Schoology again.

A screen like this will appear once the submission is successful.
