

### **Assumption of Risk**

COVID-19 is extremely contagious and is believed to spread by person-to-person contact; and, as a result, federal and state health agencies recommend social distancing and various other measures to mitigate the risk of contracting the virus. Stone Ridge School of the Sacred Heart has implemented reasonable preventative protocols, policies and procedures designed to reduce the spread of COVID-19. Students and their families are expected to adhere to these protocols in order to reduce the risks of contracting or spreading the virus at Stone Ridge.

Despite the Health & Safety Policies and other measures in place to mitigate the risk of transmission of COVID-19 on campus, there are inherent risks that students and/or their families may become infected with COVID-19 due to the student's participation in in-person classes at Stone Ridge. These risks include, but are not limited to, the following: exposure to COVID-19, becoming infected with COVID-19, or becoming a symptomatic or asymptomatic carrier of the virus. It is possible that a student is already an asymptomatic carrier of the virus before and that the student may infect other students, employees, or other individuals at the School as a result of their attendance. Any person who receives a positive diagnosis of COVID-19, including a student or their family member, may encounter extended quarantine/self-isolation, additional tests, medical care, hospitalization, other potential complications, and the risk of death. By allowing their child(ren) to come to campus for any reason, parents understand, acknowledge and voluntarily assume these risks on behalf of themselves and the student(s).
