

FLORICULTURE & GREENHOUSE MANAGEMENT

Course Description

Students will develop knowledge and skills related to the floriculture industry. Floral design and greenhouse operations and management will be the primary units of study. Students will be prepared to create floral arrangements, produce commercial plants species in a controlled environment, and manage commercial and experimental greenhouse operations.

Standard 1

Explain the role of FFA in agriculture education.

Standard 2

Explain the role of supervised agricultural experience (SAE) programs in agricultural education.

Standard 3

Demonstrate floral design techniques.

Standard 4

Demonstrate greenhouse crop production techniques.

Standard 5

Explain floriculture business concepts.

Standard 6

Explain greenhouse business concepts.
