Parent/ Guardian Handbook

Welcome!

Welcome to SAMS Academy! We are so excited that you have chosen to entrust your student's education to the staff here at SAMS, we know that working together with you and your student the future is bright. You play a vital role in your student's education and future and we know that by partnering with you to instill a sound work ethic, a love for learning, respect, and motivation we can shape the world of tomorrow.

Research shows that engagement is one of the most important indicators of students' future success. Students with parents who are involved in their education tend to have fewer behavioral problems and better academic performance; they are more likely to complete high school and to continue on to higher achievement levels in both college and career paths.

SAMS is a hybrid model school, combining the latest in digital core curriculum with live taught classes, our design means that parents and guardians have a tremendous role in their student's learning, sometimes even more so than a traditional educational setting. Many assignments will need to be completed outside of the regular school day here at SAMS and we know that your supervision and guidance is absolutely necessary to ensure course completion in a timely manner.

We are thrilled you have made the decision to become a member of the SAMS family. We know that by the staff and parents/guardians of SAMS working together as a team we can ensure success for all of SAMS students and we look forward to working with you!

Glossary

Actual Grade - The grade the student is earning in the class at that moment. The Actual Grade is weighted for work that is missing or incomplete. These assignments are scored at 0% until completed. When all assignments are “on pace,” the actual grade and the overall grade are the same. SAMS Academy requires that students’ Actual Grades remain at 70% or higher throughout the semester. We pull our weekly academic report on Sunday night at 8 am

Assignment Calendar - The Edgenuity core classes have lessons assigned each week Monday-Friday. Through the student portal, one can read names of assignments which are to be completed in each subject, each week for the entire semester. This is for planning purposes, to help you and your student know what work he/she is accountable for on an ongoing basis.

Efficiency Rate - This is the amount of time it takes a student to complete a lesson in Edgenuity. If it takes a student 1 hour to complete 1 lesson, this would equate to 100% efficiency. If it takes a student 2 hours to complete 1 lesson, this would equate to 50% efficiency. Advisors help students calculate and understand their individual efficiencies and advise them on ways to work more effectively in their studies. Understanding one’s efficiency rate is important for making a schedule that takes into consideration all factors for successful completion of each week’s assignments.

On Pace - This term means that the student has completed all assignments given by the assignment calendar for Edgenuity classes for that day or week.

Overall Grade - The average grade student has earned based on all assignments that have been completed in a course.

Parent Portal - The parent access to the student’s assignments and grades for all Edgenuity courses. Each parent is given a username and password to access this portal so that he/she can view his/her student’s progress 24 hours a day/7 days a week. Parents are trained to do this during orientation or by making an appointment with the Administrative Assistant.

Pending Grade - Projects, Performance Tasks, and Essays are not graded by Edgenuity. Students should notify advisors that the tasks are ready to be graded. Teachers grade these as needed and may ask students to revise their submission for a higher grade or to demonstrate mastery of the concepts covered.

Regrade - Some assignments (online contents, journals, assignments, quizzes, tests) are automatically graded by Edgenuity; if a student does not agree with grade given, he/she may ask the advisor to regrade it and/or give feedback on what the student needs to accomplish to earn a higher grade.

Reset - Each advisor has her/his own reset policy. Reset means that the assignment and/or lesson can be redone for better understanding and mastery. Students may ask for resets and/or advisors can require a reset.

The following procedures will serve as guidelines for use of SAMS devices and their checkout to students. All students and parents/guardians will be required to sign this form acknowledging that they have read and agree with the school system’s device checkout procedures prior to checking out a device.

1. All use of the school system’s devices must be for educational purposes. Students are not to use the computers for personal, commercial or business use or for political or religious reasons.

7. Accidental damage reported immediately will result in a \$20 repair fee per damage occurrence. If the device cannot be repaired the full replacement cost will be assessed.

I have read the Device Checkout Procedure above and agree to comply with them as stated. I also understand that any violation of these procedures may constitute me or my child not having future access to a device for use away from the school facilities.
