# FRANKLIN PIERCE SCHOOLS
2020 ELEMENTARY REMOTE LEARNING PLAN

Franklin Pierce Schools will be operating remotely for the beginning of the 2020-2021 school year. After families have expressed their preference, students will be divided into two cohorts to increase engagement, reduce screen time, and create flexible alternatives for families.

Teacher led core instruction will occur at set times through district-issued laptops on Canvas, the FPS learning management software, and include attendance, new learning content and standards based assessments.

Teacher directed independent learning will include a variety of learning activities to be completed by students on their own time as well as access to specialist classes (ex. library and music). Teacher led in-person special education and intervention services may also be provided for identified students during this time.
