Biography

I am originally from Rockford, Illinois, and moved to South Texas here in Edinburg in 1996. I have taught Algebra 1, Geometry, Algebra 2, 8th grade Math, and 7th grade Math subjects here at STPA.

This year I am teaching Algebra 1 and Algebra 2.

I graduated in 1991 from Beloit College in Wisconsin with a B.A in Mathematics, as well as becoming certified in teaching Mathematics.

In 2010, I became the first teacher to be Nationally Board certified here at STPA, and I was the only Nationally Board-Certified teacher for Early Adolescent Mathematics in all of Region 1 (south of San Antonio, and the Rio Grande Valley area.)

The best part of my life is having a wonderful woman as my wife and an awesome daughter. I also have 3 dogs, named Snowy, Kozita and Bernie. For hobbies, I like to work outside, cooking creatively, reading and getting information about anything Star Wars related, and playing video games.
