

Good morning families,

Happy Monday! Now that we are a few weeks into the school year, I hope that you and your child are starting to feel comfortable with the technology and different online learning platforms. If you haven't checked out our [Parent and Family Quick Guide for Distance Learning](#), I encourage you to do so. There is a bunch of helpful information in it! You can also find videos of all of our previous Zoom meetings and parent trainings [here](#), in case you missed those.

Updates for students in grades pre-K through 2nd:

- Our team is working hard to make sure that all pre-K through 2nd grade students have full access to their Canvas courses. Students who do not have full access yet may begin working through the lessons that are currently available.
- Bundle supplies for students should have been picked up from your student's home school. If you have not received those supplies, please keep an eye out for another email from us in the next week or so with further instructions. We are working with home schools to make arrangements for you to pick those up.
- Did you know that participation in the Free and Reduced Lunch program offers more benefits than just meals? Submitting your application can mean increased Title I funding for your school! Apply for this free and confidential program on our website at www.tulsaschools.org/mealapp before October 1.
- We have put together an overview flyer for students and families to help you get a better idea of what the next several weeks will look like for your child. Click [here](#) to access the overview document. It will also be available on our website at www.tulsaschools.org/virtual.

Don't forget that our Student Tech Support team is available to assist with any technical issues that you may be experiencing – you can reach them at 918-833-TECH or studentVL@tulsaschools.org. I hope you all have a wonderful week of virtual learning and I look forward to connecting with you next week!

Take care,
Gina Wilson
