

# BETTER TOGETHER

BETTER TOGETHER

# On campus or online, visit our Open House or one of our Discover Grauer Days. Let us show you how and why our students and teachers are so much better together!

For 30 years, learning outside the classroom has been at the heart of The Grauer School's philosophy. In lush natural settings on our campus and on global expeditions, our students become reacquainted with all five senses as they explore science, art, social relations, leadership, health and fitness, geography, ecological stewardship and more.

In this sense, we are better prepared than other schools for the world's current challenges. The great outdoors isn't just inspiring—right now, it's also a safer place than the classroom. Our outdoor classrooms allow students and teachers to be together... to be better together emotionally, intellectually and socially.

In safe classrooms, outdoors, or through remarkable hybrid technology, Grauer is equipped to inspire eager minds and hearts. RSVP online at **[grauerschool.com](http://grauerschool.com)**. Come see for yourself why we're better together.
