

A New Photography Experience

Lifetouch is leading the photography industry in providing comprehensive photography session safety protocols. These protocols follow the guidelines and recommendations of the Center for Disease Control (CDC), U.S. Department of Health & Human Services (HHS), and Occupational Safety and Health Administration (OSHA) standards related to COVID-19.

Our new photography safety protocols include:

Lifetouch employee
safety training

Lifetouch employee
pre-session health check

Enhanced
cleaning

Social distancing*

Masks

Contactless payment

* To ensure social distancing, a space measuring at least 50' x 26' with air conditioning is required. This allows us to accommodate the proper flow for check-in, garment selection, a changing area, pose selection station, photography and departure. Additionally, only confirmed appointments will be accepted at the camera; We are unable to accommodate walk-ins. Each senior will receive a pre-scheduled date/time for their session, which must be confirmed at prestigeportraits.com. Students are encouraged and allowed to bring one person to assist them.

Photography safety protocols may change based on new or revised recommendations from local and national government agencies.

While photography sessions may look different this year, as a trusted partner, our goal remains the same; to ensure you receive this essential photography service and families can continue to capture life's memories.

Contact your Lifetouch Representative for more details.
