

SAMS SCHEDULE AND CLASS INFORMATION

2020-2021 SCHOOL YEAR

Hello, SAMS Families!

October is right around the corner which means that students will be quickly wrapping up their S-Term projects and getting ready for their Semester 1 classes to begin. Classes at SAMS will look a little different than in the past so we hope this information along with more to come help clarify what students can expect. Here is a [video](#) to help explain the material - also please read through this information and contact us if you have any questions. (See next page for contact info.)

MODIFIED HYBRID LEARNING PLANS

In this model at SAMS, students will be participating in Distance Learning the majority of the time. Distance Learning will take place at home and online. Starting Monday, October 5, students will be meeting online with classes every Monday, Tuesday, Thursday, and Friday and will be meeting online with their club on Wednesdays. Which classes your student has on which days of the week depends on which cohort they are a part of. Students' class schedules in Skyward will also clarify which classes meet online during which days of the week.
