Richland College

ASSOCIATE OF Arts in Teaching

- The 2020-2021 School Year is the first year that the Associate of Arts in Teaching (EC-6) degree will become available.
- Incoming 9th graders are eligible to apply to the P-Tech program.
- Students in the P-Tech program will have access to the best teachers and support to help guide them through not only high school, but their first two years of college!
- Sachse High School is partnered with Richland College.
- Students will take classes at Sachse High School, as well as travel to Richland College for some of their credits.

Education Courses

9th Grade

- Principles of Education

10th Grade

- TECA 1354- Human Growth and Development

11th Grade

- EDUC 1301- Intro to Teaching

12th Grade

- EDUC 2301- Special Populations

WHY SACHSE High School?

- You will earn your Associates degree and high school diploma at the same time!
- You will attend classes taught by Richland Adjunct Professors who have teaching experience ranging from kindergarten to high school! Sachse works hard to give you the most realistic experience of being a teacher.
- During your Junior and Senior Year, EDUC 1301 and EDUC 2301 are double blocked classes, allowing students to have 3 to 6 hours of off campus internship experiences each week.
- We allow placements in elementary and middle school in fields that you are passionate about.
- We love field trips and going places that further our knowledge in the teaching field.

AS an P-TECH Education Student You Will....

- Research, investigate and explore the world of education from a classroom of your own.
- Plan and direct individualized and group activities.
- Write lesson plans and prepare instructional materials.
- Work alongside master teachers at Armstrong, Back, Dorsey, Keeley, Liberty Grove, Sewell, Shorehaven, Hudson, and Schrader.
- Be a part of our club, Texas Association of Future Educators (TAFE)

TAFE

Texas Association of Future Educators
