CONNECT YOUR CHROMEBOOK TO YOUR HOME WIFI

*** A Chromebook must be connected to a Wi-Fi network before login process can be performed ***

- In the bottom-right corner of the screen, click into the area with the Wi-Fi symbol (if it isn't enabled, you'll see an outline without an available signal inside).
- Click "Not connected" — you'll see the Wi-Fi button turn on and it will automatically search for local networks.
- If you've already established a local Wi-Fi connection, it should automatically connect. Otherwise, select one from the available list and enter the password, or click the Wi-Fi button with the plus sign (next to the place where you would toggle the Wi-Fi on or off) to join another network.
- Enter the SSID of the network you want to join, then enter the password, if necessary.

Chromebook login

To login to a district issued Chromebook you must use a **@vvstu.org** student account.

Student account formula: **Last name** + **first initial of first name** + **last 3 digits of ID** + **last 2 digits of birth year** + **@vvstu.org** (ex. SmithR03406@vvstu.org)

Password: **student ID** + **last 2 digits of birth year** (ex. 20103006)

** Students new to the district must obtain their 6-digit ID from their school of attendance**

> ****Special Note**: Students with *very long last names or 2 long last names* will need to shorten them to only the first **14 characters and remove the space or hyphen;**
>
> **As an example:** a student with the last name of ***Hernandez-Rodri**guez*, first name of ***James***, ID# of ***299089*** and Birthyear of ***2007***
>
> would shorten the last name to 14 characters and remove the hyphen/dash -> **HernandezRodri**
>
> making their Username/login -> **HernandezRodriJ08907**
