## Technology Checkout Agreement:

Parents/guardians may request permission to borrow Carbon County School District #1 ("CCSD1") technology device(s) for their student or students. CCSD1 is making technology devices available for off campus use in situations where a student is physically unable to attend school and does not have access to such technology devices at home.

In exchange for being permitted to borrow a CCSD1 technology device, the parent/guardian of the student who will be using the device agrees to be financially responsible for the device and to repay CCSD1 for any loss incurred by CCSD1 in the event the technology device is lost, stolen, or damaged from the time it is borrowed by the parent/guardian or student until the time it is returned to CCSD1. The parent/guardian also agrees to return the device in the same condition as when it was first borrowed. Furthermore, the parent/guardian agrees to return the technology device to CCSD1 immediately when the technology device is no longer needed by the student for CCSD1 school work, or upon the request of CCSD1, which request may be made at any time and for any reason whatsoever.

Students using borrowed CCSD1 technology devices and their parents/guardians are responsible for conforming with the applicable CCSD1 internet usage agreement as set forth in CCSD1 Board Policy IJDB-E, which can be found here:

By providing a technology device pursuant to this agreement, CCSD1 does not assume or agree to provide internet service or access to the home of the student or parent/guardian borrowing the device.
