### From the Nurse

Greetings King students and families!

I wanted to give a big thank you to our families for working together with us this year on implementing our new Covid guidelines. We know things look different this year and can be a little frustrating at times, but the cooperation and understanding from our families has been amazing! We continue to work on making improvements wherever we can.

I want to highly encourage everyone to consider getting flu shots this year. In addition to providing that important protection against the flu, many of the symptoms seen with flu and Covid19 are similar. Being protected against the flu is one more way to decrease the amount of isolations and quarantines the school will have to implement while we distinguish flu cases from Covid19 cases. If you ever have questions or concerns about the health of your child, please feel free to contact me.

Warm Regards,

Janine Kappelman  
BSN, RN  
School Nurse
