

Students

Health and Dental Examinations, Immunizations, and Exclusion of Students

Required Health Examinations and Immunizations

A student's parent(s)/guardian(s) shall present proof that the student received a health examination and the immunizations against, and screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health (IDPH), within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth and ninth grades; and
3. Enrolling in an Illinois school, regardless of the student's grade (including early childhood programs, special education, Head Start programs operated by elementary or secondary schools, and students transferring into Illinois from out-of-state or out-of-country).

Proof of immunization against meningococcal disease is required for students in grades 6 and 12 beginning with the 2015-2016 school year. Beginning with the 2015-16 school year, the 6th grade meningitis requirement rolls up with each school year. This means for the 2020-21 school year, the meningitis vaccine is required for 6th through 12th grades.

Ie: 2015-16 = 6 & 12th
2016-17 = 6, 7 & 12th
2017-18 = 6, 7, 8 & 12th
2018-19 = 6, 7, 8, 9 & 12th
2019-20 = 6, 7, 8, 9, 10 & 12th
2020-21 = 6, 7, 8, 9, 10, 11, 12th

As required by State Law:

1. Health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice nurse who has a written collaborative agreement with a collaborating physician authorizing the advanced practice nurse to perform health examinations, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
2. A diabetes screening is required part of each health examination; diabetes testing is not required.
3. Beginning with the 2017-2018 school year, an age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination. A student will not be excluded from school due to his or her parent/guardian's failure to obtain a developmental screening or a social and emotional screening.

4. Before admission and in conjunction with the required physical examination, parents(s)/guardian(s) of children between the ages of one and seven years must provide a statement from a physician that their child was “risk-assessed” or screened for lead poisoning.
5. The IDPH will provide students entering sixth grade and their parent(s)/guardian(s) information about the link between human papilloma virus (HPV) and cervical cancer and the availability of the HPV vaccine.
6. The District will provide informational materials regarding influenza, influenza vaccinations, meningococcal disease, and meningococcal vaccinations developed, provided, or approved by the IDPH when it provides information on immunizations, infectious diseases, medications, or other school health issues to students’ parent(s)/guardian(s).

Unless an exemption or extension applies, the failure to comply with the above requirements by the first day of school will result in the student’s exclusion from school until the required health forms are presented to the District. New students who register after the first day of school shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by the first day of school, the student must present, by the first day of school, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice nurse, physician assistant, or local health department responsible for administering the immunizations.

A student transferring from out-of-state who does not have the required proof of immunizations by the first day of school may attend classes only if he or she has proof that an appointment for the required vaccinations is scheduled with a party authorized to submit proof of the required vaccinations. If the required proof of vaccination is not submitted within 30 days after the student is permitted to attend classes, the student may no longer attend classes until proof of the vaccinations is properly submitted.

Eye Examination

Parent(s)/guardian(s) are encouraged to have their children undergo an eye examination whenever health examinations are required.

Parents/guardians of students entering kindergarten or an Illinois school for the first time shall present proof before the first day of school that the student received an eye examination within one year prior to entry of kindergarten or the school. A physician licensed to practice medicine in all of its branches or a licensed optometrist must perform the required eye examination.

If a student fails to present proof by the first day of school, the school may hold the student’s report card until the student presents proof: (1) of a completed eye examination, or (2) that an eye examination will take place within 60 days after the first day of school. The Superintendent or designee shall ensure that parent(s)/guardian(s) are notified of this eye examination requirement in

compliance with the rules of the IDPH. Schools shall not exclude a student from attending school due to failure to obtain an eye examination.

Dental Examination

All children in kindergarten and the second and sixth, and ninth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the IDPH.

If a child in the second or sixth, or ninth grade fails to present proof by May 15, the school may hold the child's report card until the child presents proof: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15. The Superintendent or designee shall ensure that parents/guardians are notified of this dental examination requirement at least 60 days before May each school year.

Exemptions

In accordance with rules adopted by the Illinois Department of Public Health (IDPH), a student will be exempted from this policy's requirements for:

1. Religious grounds if the student's parent(s)/guardian(s) present the IDPH's Certificate of Religious Exemption form to the Superintendent or designee. When a Certificate of Religious Exemption form is presented the Superintendent or designee shall immediately inform the parent(s)/guardian(s) of exclusion procedures pursuant to Board Policy 7.280 *Communicable and Chronic Infections Disease* and State rules if there is an outbreak of one or more diseases from which the student is not protected.
2. Health examination or immunization requirements on medical grounds, if the examining physician, advanced registered practice nurse, or physician assistant provides written verification.
3. Eye examination requirement if the student's parent(s)/guardian(s) show an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist.
4. Dental examination requirement, if the student's parent(s)/guardian(s) show an undue burden or a lack of access to a dentist.

Homeless Child

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce immunization and health records normally required for enrollment. Board Policy 6.140, *Education of Homeless Children*, governs the enrollment of homeless children.

Notwithstanding the above, for the 2020/2021 school year, students shall have until October 15 to present their proof of immunization and/or eye exam.
