## At-Home Learning Days Support

Dear Parents & Guardians,

As your child continues to acclimate to Hybrid or Distance learning, we wanted to offer you some tips to support at-home learning. We realize some of the different predicaments you are in as you try to best support your child and manage other responsibilities. It is a balancing act for many as some of our parents are working from home while their child learns, while others may rely upon family members or outside organizations to supervise and work with their children. While situations and children are different, here are some insights into how you can make at-home learning most productive for your child:

-  **Put structure in place by following a schedule.** While your child is required to attend 2-3 LIVE meets (Morning Meeting, Language Arts, and Math) on an at-home learning day, there is flexibility within the schedule. Please set up specific times for Language Arts and Math that work best to meet your child's learning needs while matching up with your family schedule.
-  **Schedule regular breaks for your child.** To chunk the school day, incorporate break times for your child to play with a sibling or pet, go outside, or help with something around the house. Try to keep your child off electronics during break times. Keep these breaks brief (10-15), and schedule them throughout the day.
-  **Let your child be challenged.** It is a natural response for a parent or caregiver to want to help a child when he/she is struggling with their academics. We want caregivers to support learning and offer appropriate assistance, but it is okay for your child to struggle at times, and we often learn a lot from mistakes! Let your child struggle through some things and work on some assignments independently. Errors in your child's work allows the classroom teacher to get valuable information on their learning and how to best support them. In some cases, students may be taking classroom and district assessments at home. Remember we want your child's assessments to be a true measure of what he or she can do. Your child's teacher will closely monitor various assessments and student work to appropriately support him/her.

**Allow for movement whenever possible.**

We are fortunate to offer a variety of seating arrangements while students are learning in-person at DMS. Try to mimic possibilities at home. Some students may benefit from standing during learning, sitting at a wobbly chair, or reviewing math facts while doing jumping jacks.

**Communicate with your child's teacher and the school.**

Our teachers and entire staff are here to work with your children and you to provide the best learning environment possible. If you have questions about your child's assignments, learning style, or social/emotional development, please reach out.

We appreciate all of the support you have offered us throughout the COVID-19 pandemic and want to make our current environment as productive and enriching as possible for all of our students.

Sincerely,  
Jenn & Tom

LIQUID AND STEAM BURN LIKE FIRE

## Burn and Scald Injury Facts

### BURN AND SCALD INJURY FACTS

**Burns** are very painful.

**Recovery** from severe and extensive burns is often very long and difficult.

**Thermal** burns from hot objects like curling, straightening or clothing irons cause most burns.

**Hot** water causes more than half of all scald burns in children.

### BURN AND SCALD PREVENTION TIPS

**Keep hot foods and drinks away** from the edges of tables and counters.

**Put hot items down (like a cup of coffee)** before picking up or carrying a child.

**Keep children away when you cook** by using a highchair, pack n'play, gates, or supervision of another adult.

**Cords of appliances should remain out of reach** by winding or tucking cords away because children like to pull on cords.

**Microwaves should not be used by young children** and only with supervision for older children. Plates, cups and foods can be hot enough to burn.

**Test water from faucets before washing** children's hands, feet, or other body parts. Water can be unexpectedly hot and scald any age child. Check to be sure that the hot water heater that supplies your home is set at or below 120° F.

**Supervise children** near grills or in the presences of fireworks.

### S.T.O.P. : FIRST AID FOR BURNS

**S** Strip off wet clothes and any jewelry.

**T** Turn cool water on and run over burn immediately, for at least 3-5 minutes.

**O** Organize medical assistance by calling 911 if the burn is more than the size of one of your child's palms.\*If smaller than one palm, then call Primary Care Provider for next steps.

**D** Protect burn with a clean dry cloth. DO NOT apply creams, ointments, grease, or other home remedies.

### Hearing and Vision Screenings

In October, hearing and vision screenings will be conducted on students in our schools as required by the Connecticut General Statutes for grades K-5. If a vision or hearing problem is suspected, the student will be rechecked at a second screening. If further consultation is recommended, families will be notified in writing of the findings and will be asked to seek further medical evaluation. If you have any questions concerning the screenings, please contact the school nurse. If you have any recent updates from your child hearing or vision doctor, please provide them to the nurse as soon as possible.

### Please help us to keep the DMS community healthy!

Our goal is to keep DMS as healthy as possible, especially during the pandemic, and we are asking that you follow the [Parent/Family Responsibility Form - Health Safety Requirements](#) and continue to evaluate your child daily before sending him or her to school.

### As you know it is also cold, flu, and allergy season!

Please keep your child home if he or she is ill, and follow the "24 Hour Rule" for illnesses. Inform the nurse if your child has been diagnosed with the flu or any other communicable illness. If your child suffers from allergies, please speak with his or her doctor and manage symptoms as needed.

### Prevent Flu and Illness

- Get a flu shot
- Cover nose and mouth with a tissue if you cough or sneeze
- Wash your hands with soap and water often
- Avoid touching eyes, nose, and mouth
- Maintain social distance
- Wear your mask

**Mask should cover your mouth and nose, snug to the face.**

# Mental Health **Notes**

As the 2020-2021 school year gets underway, we know that Distance Learning days require students to shift from traditional learning styles. Below are some strategies and suggestions to help your students be successful while learning from home.

## **Top 10 Tips for Successful Distance Learning Days**

### **MAINTAIN ROUTINES**

- 1 Treat distance learning days just like an ordinary school day. Students should go to bed and wake up as they typically would for school.

### **MAKE A SCHEDULE**

- 2 A picture or written schedule can help to keep track of the larger time blocks of the day and what activity is taking place when.

### **USE A CHECKLIST**

- 3 It can be helpful for students to check-off tasks as they are completed.

### **SET TIMERS**

- 4 Set timers to provide an audible cue that it is time to move to another task/activity. These can be especially helpful for live meets.

### **TAKE BREAKS**

- 5 Plan breaks into the day that offer the opportunity to move and disconnect from the computer.

### **ALTERNATIVE SEATING ARRANGEMENTS**

- 6 Explore different options such as standing at the table, laying on the floor, or balancing on a yoga ball.

### **CLEAR WORK ENVIRONMENT**

- 7 Try to reduce the number of distractions (visual and auditory) within your learners immediate work area.

### **ALLOW FOR MISTAKES**

- 8 We are all working to develop a growth mindset. Mistakes help us to learn and help our teachers know what we still need to work on.

### **POSITIVE REINFORCEMENT**

- 9 Catch your child when he or she is doing the "right" thing and offer verbal praise

### **BE FLEXIBLE**

- 10 Be flexible with your child and yourself. Some days will be better than others, and that is okay!

Please don't hesitate to reach out to your child's teacher and/or a member of the mental health team if you have any questions or concerns.
