

STUDENT SAFETY

Your child's safety is critical to us, our programs, and our future. We've developed and refined our 6 layer safety system to ensure that every student safely attains college-ready results and a great experience. Each agent completes a five-step vetting process and background checks before becoming a certified agent. Your child only communicates with their agent through our secure and monitored software and is required to submit a parent consent form prior to being connected with their agent. Read more about our safety system, and find the parent consent form on our website: www.studentsuccess.co/parents

STUDENT SUCCESS AGENCY™

Parent Information

LEBRON JAMES HAS AN AGENT,
BEYONCÉ HAS AN AGENT, WHY CAN'T TEENS?

WE SUPPORT YOUR STUDENT IN DISCOVERING AND MEETING THEIR ACADEMIC AND LIFE GOALS.

WHAT WE DO

At Student Success Agency we pair students with their own personal mentors who we call AGENTS. LeBron James has an agent, Beyoncé has an agent, why can't teens? Student Success Agency is the first agency that represents teenagers instead of celebrities and athletes. We learn about each student and pair them with a mentor who we believe can closely relate to and support that student in pursuit of their goals. The students connect with their agents through a mobile device and all interactions are stored in our secure system. We provide your child with someone in their corner who is available on-the-go around their schedule.
