
Enrollment

The James Iredell AP Academy is open to all students in the Iredell Statesville School District. We are geared towards students who are looking to set themselves apart from other applicants and afford themselves an advantage in competitive college admittance.

We make every effort to ensure the AP Academy reflects the diversity of SHS and Iredell County.

Our application is available to download online through the Statesville High School website:

What We Are

We are an intensive program that was started in the fall of 2012. Our program was established to enrich students who are highly self motivated and desire the challenge and commitment of advanced placement courses upon entering high school while still enjoying the traditional high school experience.

The AP Academy provides a broader focus than simply content knowledge. We engage in analytical reasoning skills, technological competencies, and project-based learning. It is a unique program designed to meet the needs of driven students seeking to be better prepared for college admissions.

Who We Are

We are a group of College Board Certified educators with unique skill sets, offering innovative teaching techniques and training.

Our teachers are dedicated to instilling in our AP Academy students the skills and commitment needed to succeed in college level courses.

Extracurricular

Excursions

At the James Iredell AP Academy we strive to provide each grade level with opportunities to enrich their learning outside of the classroom through tailored educational expeditions to tour colleges, explore the east coast of the United States, and learn about other cultures and the world around us.
