

Methodist College

Summary of Online Learning

Sixth Form

In recent months, Methody has been developing the online support to our pupils to help learning. This is bringing significant benefits in helping our pupils become more independent in their learning and manage the online submission of marked work, which in turn brings reduced risk of Covid transmission and improved feedback for pupils. This table sets out for parents the platforms that various departments are using. All pupils should now ensure that they are pro-active in their use of online learning. **Pupils must check their C2K email regularly as teachers may also contact by email.**
