Q5. What important characteristics of the school do you hope are reflected in the school name?

community and collaboration

Community

Community

Mastery

Location, values, "feel" of the school.

Innovation, risk taking, progressive, inspirational, welcoming,

This would be tough but arts-infusion project-based learning

Diversity

High standard of learning and values

The values and mission of what the Murray high and community school is about. Murray school is a really special place for our child.

Community, small, liberal arts

Emphasizing the role of research and development - eg <https://www.ucls.uchicago.edu/>

Focus on the arts, creativity, and design

Something related to the arts and technology focus that the school has, perhaps.

The character and respect for the community.

innovation, creativity, forward thinking, collaborative, PBL, curiosity, exploration

Student autonomy, creativity, collaboration, inclusiveness, willingness to take risk, sense of support.

It's innovative nature.

Its location and context

Community, Innovation, excellence, perseverance

Community

Creativity, collaboration and ingenuity

Collaborative, innovative positive, problem-solvers, contribution

Creativity community

Something new

Murray

High school

The characteristics to be is what Murray stands for like one example is that Murray is a laboratory school but also it's about the students and the staff members. I feel like we all accept one other for who they are.

Well it's Murray and always will be for me and a lot of others

The community

Considering the significance of William Glasser's Choice Theory on the school at its conception, I feel that should not only remain a part of the school's identity, but also its name

That it's called Murray and stays Murray.

I hope to see a name with characteristics of a school where students excel and love learning. The geography of where the main school is located would be nice as well. Characteristics such as positive education and a welcoming name is important to me.

community

Maybe that it has to do with art I guess or that it's open for creativity and unique people

Murray

The school's purpose, history/CULTURE

School history and values. The school is a very important resource to the Cville community and has been for a long time despite many changes, so as an alum it's really important to me to see that honored.

Progressive, forward, vibrant

The school name should reflect both the middle and high school equally. The schools have been known for their ingenuity, acceptance of all people and the students and parents having a strong voice and understanding of how the school is moving forward..

choice, progressive, innovation, alternative

community

Innovation

I'd like Murray to be in the name.

Innovation, Community

The strong sense of community.

Innovative teaching, openness, acceptance

Community and Creativity

Choice, Character, Collaboration, Dedication, Respect, Sharing

The empowerment of students to have choice in their education and share their gifts so they will thrive, academically, socially and emotionally.

community

strength

Theme and geography

The community

Community, Art and Creativity, project based learning, small size

Openness and equality.

Maybe something that has to do with choice theory. I really don't want a name that has the word 'community' in it. Also the inclusion of charter to make it obvious it is a charter school

Project learning

Morality and conscience

The fact that it is a lab school

Lab school, IB program

These are some more words I think describe our charter schools: Innovation, Freedom, Adventure, Joy, Enlightenment, Insight, Wisdom, Positive, Awakening, Power, Renaissance. I also think using the symbol of the dragon may work. Dragon Academy or Dragon Center for Innovation? Blue Mountain Middle and High School also sounds good.

Community

The focus on group creativity is something I would like to see reflected.

Maker/Project Based, collaboration

I would like it to include Murray. I am already somewhat disappointed that we are changing it to begin with.

I would love a name that somehow captures what is so great about this school.

That is a Charter School....other than that, I don't have a strong opinion.

Innovation/project based/Albemarle county/full community/ARTS/team approach/learn by doing

Murray High School's heritage has been out of the Glasser model of education, which focused on character of students, effective communication, and quality of work. I would hope that the new name would reflect the school's focus on the whole person vs. just the history of or location of the school.

Reflecting the sense of values and community in the name are important to me for this particular school.

I would like for the name to sound professional and not make it seem like the name of a day care. I think both the middle school and the high school should be able to use the same name, but the name should be able to be used and sound like the name of a high school. Cause people don't want name that doesn't tell them what kind of school it is.

dragons

Community, interdisciplinary, self-guided, life-long-learner

The uniqueness and creativity

I would recommend something simple related to local history / geography but that also displays an educational value.

LGBTQ+ friendly, accepting of all races, and the IB program.

Innovation, arts, inclusiveness

A reflection of what the kids are learning and what the school is meant to be about is important.

Respect for each individual's gifts and learning style.

Individuality

The school's nontraditional approach through student-centered learning, function as a laboratory school, or emphasis on creativity would all be appropriate and key characteristics to consider

Community, teamwork and project based

I do like "community" and I like collaboration, project learning, interdisciplinary, student leadership

Bonds, community, strength

I'd prefer a name that's geographical

Ingenuity in education; small community/collaborative school

Curiosity, Creativity, Common purpose

I would like the school name to include some mention of STEM and innovation. If you can include the spirit of inclusiveness and opportunity for all students that would also be nice.

The name Murray reflects the importance of an important Albemarle county educator

Community

A strong commitment to strengthening individual students' abilities, desire for self confidence and what each student has within their selves to succeed in life.

Neutrality / Apolitical / Lingeivity

Maybe the fact that it is two schools combined, or something about how it's unique.

Smart, kind, a good person, did good deeds.

The rich history of the community, as well as the uniqueness of this school. With emphasis being placed on community.

Something that recognizes the unique fusion of the collaboration between MIT / UVA and this important school in our community. I also think it is really valuable to recognize and appreciate the Rose Hill Community that has been here since 1916.

If I'm being honest I think it should just be Murray.

Murray

Murray

Keep Murray in the name

I think Murray should stay in the name, particularly for all of those who attended previously

Please keep the word Murray in it

Rose Hill Charter,

I think it should include something about being different from other acps schools, and include words like 'alternate' or 'different' as well as 'community' and 'opportunity'.

Albemarle Maker School

Murray Arts / Murray School Of Arts. Idk it just has to include the name Murray, that's my opinion.

Skyline, Vista, Cardinal,

Albemarle Community School.

I would like to see a name that reflects the creative focus of the school. Murray has always had group work projects as a key part of the curriculum. A name that focuses on the creative, community focused, unique nature if the school would be great.

My daughter's suggestion is community upper and lower 🍌

Our son likes the idea of calling in Dragon Academy and I told him that I would send that idea in on his behalf. I like the idea of the value of community or sense of dynamic way of learning is a part of the name. I trust you will come up with something that is positive and grounding. Thank you!

Dogwood Secondary Academy

I strong encourage retaining the Murray name in some form.
