

**Lower Merion School District**

Policy No.: 811  
Section: OPERATIONS  
Title: DISTRICT VEHICLES – USE OF GLOBAL POSITIONING SYSTEMS  
Date Adopted: 12/20/10  
Date Last Revised:  
Reviewed: 9/11/2020

**811 DISTRICT VEHICLES – USE OF GLOBAL POSITIONING SYSTEMS**

Purpose

In its continued and ongoing efforts to ensure that District utilization of District vehicles is as efficient, safe and secure as possible, Global Positioning Systems (GPS) will be installed in District vehicles as determined by the Superintendent.

Definitions and Description of GPS

A “GPS” combines the installation of an electronic device in school buses along with access to purpose-designed computer software at an operational base. It enables the District to track location, direction and speed of school vehicles by collecting data from the field and delivering it to the base of operation. The base of operation is typically the District Transportation Department.

Delegation of Responsibility

The Superintendent or designee shall develop regulations to implement this policy.
