

ST. GEORGE'S SCHOOL

Guidelines for Family Visits to Campus

(Updated October 9, 2020)

As previously communicated, immediate family members are welcome to visit campus this fall. It is with an abundance of caution that we ask families to adhere to the following guidelines and expectations to ensure the campus community is safe.

When Visiting:

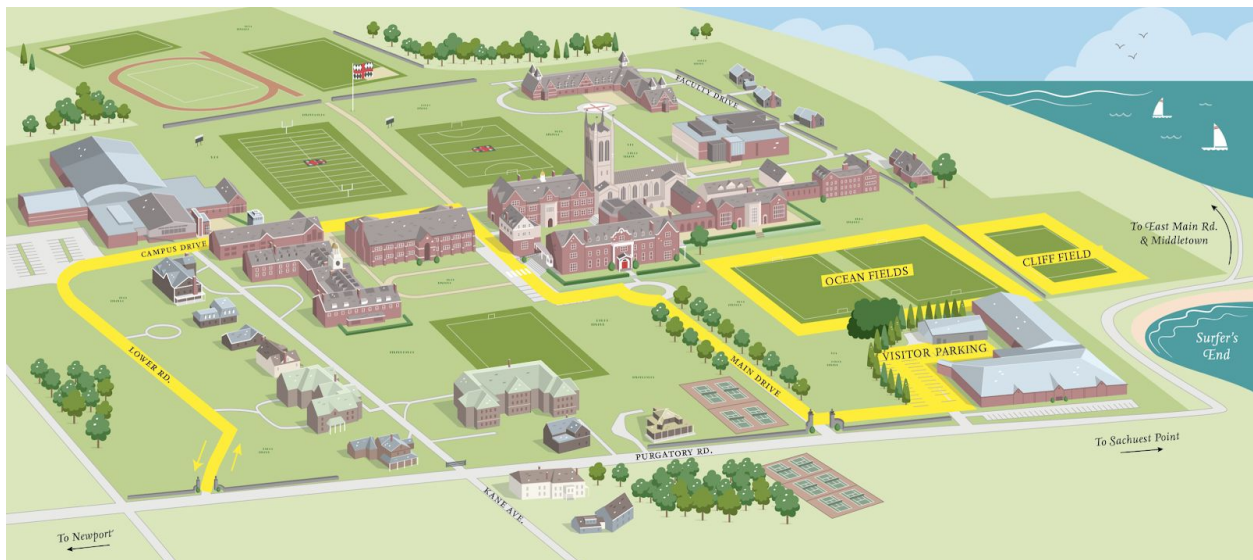

- Family members are not permitted to visit with children other than their own.
- Family members are not permitted in dormitories or any other school buildings.
- Physical distancing must be maintained at all times. While we understand the desire to hug your child, six foot distancing is imperative.
- Masks must be worn at all times, making sure that it covers the nose and mouth.

Food:

St. George's School recognizes the desire for families to share meals. However, due to the need for everybody to remain masked at all times, visitors to campus are not permitted to eat with students. Families are welcome to drop off food to be consumed later.

Visiting Locations:

- Ocean & Cliff Fields - Families are encouraged to bring beach chairs or blankets for Ocean and Cliff Fields. Students should not share blankets with visitors.
- Family members and students may walk the campus perimeter, but should not walk through the middle of campus or into any buildings.

Arrival/Visit to Campus:

- Use the Lower Road Entrance
- Meet Campus Safety Officer, who will conduct a health screening

Parking:

- Families are permitted to park at the Hockey Rink (directions will be provided upon entrance)
- Restroom facilities are available at the front lobby

Departing Campus:

- Exit through the Lower Road
- Check-out with Campus Safety

Conduct a self assessment prior to arrival:

- Have I displayed symptoms within 14 days of the visit?
- Have I traveled from a high-risk state?
- Have I been exposed to COVID in the previous 14 days?

If you answer “no” to the previous questions, we look forward to welcoming you to campus.

Should you need to drop off an item for a student without visiting in person, please label your items appropriately and deliver to the pool lot/lobby.

Families requiring air transportation must coordinate plans with June Bjerregaard, Director of Health Services.

Visiting Hours:

- Monday-Friday: 5-7 p.m.
- Saturday: 3-5 p.m.
- Sunday: 12 -5 p.m.

To secure a date and time slot, please utilize the following [SignUpGenius link](#). We respectfully request that families are cognizant of other students and families when completing the form.
