

COVID Screening Questions

1. Has your student had close contact (within 6 feet for at least 15 minutes) in the last 14 days with someone diagnosed with COVID-19, or has any health department or health care provider been in contact with you or your student and advised you to quarantine?
2. Does your student have any of these symptoms: Fever, Chills, Shortness of Breath, New Cough, Loss of Taste or Smell?
3. Since they were last at school, has your student been diagnosed with COVID-19?

The answer to all of these questions above must be no in order for a student to enter the building.

A student can return to school and utilize school when a family member can ensure that they can answer YES to ALL three of the following questions:

- Has it been at least 10 days since the student first had symptoms?
- Has it been 24 hours since the students had a fever (without using fever reducing medicine)?
- Has it been 24 hours since the student's symptoms have improved, including cough and shortness of breath?
