

Dear Parents and Carers 12.10.20

This week the children will explore the story of 'Peck Peck Peck' This book looks at a Little Woodpecker and how he learns to peck a tree. Once he starts he just cant stop. The children will be looking at the bright colours the story uses and the wonderful rhyme that runs throughout. To help us with our learning this week we would love lots of sticks, autumn leaves and toilet/kitchen roll tubes.

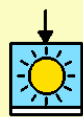

In maths we will continue to explore early number and 2d shapes. We will be identifying and making repeating patterns with shapes.

In Understanding of the World, the children will be learning facts about Woodpeckers.

In P.E we will explore how to throw and catch a ball safely.

We will be sharing a photograph of all the children from each class over the next couple of weeks.

Sounds Write Programme

The Sounds-Write reading programme is a phonic approach to the teaching of reading and spelling. It begins with the sounds in the language and moves from the sounds on to the written word.
