## SCHOOL TELEMEDICINE PROGRAM

Connecting Your Child to Convenient Care

### Quick & Convenient

At Shannon, we understand that the health of your child is of the utmost importance. We also understand that taking time off work when your child suddenly gets sick at school isn't always easy. With the Shannon School Telemedicine Program, your child can get the care they need without making a trip to an urgent care clinic and having to sit in a waiting room.

### Careful & Confidential

Shannon's School Telemedicine Program lets your child see a doctor through computer and video technology in the school nurse's office. Using specialized equipment, providers from the Shannon Pediatric Clinic can listen to your child's heart, look into their ears and throat and assess any other symptoms. If necessary, the Shannon provider will call in a prescription to your chosen pharmacy. Parents are informed prior to each visit and are able to listen to their child's appointment via phone. Your child's visit information will also be available to view in Shannon MyChart. You can sign up for access at [shannonmychart.com](http://shannonmychart.com).

### Conditions that can be treated:

Illnesses that you would normally visit an urgent care clinic for can be treated virtually through the telemedicine program. These include:

- Earaches
- Fever
- Coughs and colds
- Rashes and minor skin infections

- Abrasions and scrapes
- Strep Throat
- Flu
- Pink eye

- Asthma
- Allergies
- Head lice

### Pre-registration & Cost of Service

Parents must complete registration paperwork to enroll their child into the program. Paperwork is available from the school nurse and should be returned to the school office. You can also find printable registration packets in English and Spanish on our website at [shannonhealth.com/schoolhealth](http://shannonhealth.com/schoolhealth). There is no cost to enroll in this program. If your child has a visit, we will bill your insurance and any required co-pay amounts after the visit. Those without insurance will receive a self-pay discount and be billed after the visit.
