

What specific health and safety protocols has or will Urban put in place?

We will follow or exceed SFPD, California Department of Public Health and CDC guidelines for school reopening. Highlights include:

- Daily wellness checks completed by students/adults via app prior to entering campus.
- Mandatory masks in the buildings. Optional face shields. Plexiglass dividers in certain areas.
- Orchestrated traffic flows through and between buildings.
- Utilization of outdoor and alternative spaces when possible.
- Updated HVAC system/filters and open windows/doors whenever possible.
- 6 foot separation of desks and seating in classrooms and common spaces.
- Closed campus and no non-essential visitors allowed.
- Touchless hand sanitizers in every room and hallways; touchless sinks, soap dispensers, and toilets in all bathrooms.
- Additional staff for frequent campus cleaning.
- An on-site, full-time Pandemic Coordinator (likely an EMT) will be hired to oversee protocols.
