

#### Year 11 Cambridge National ICT

**This GCSE is an even split between coursework and a final exam.**

- Exam assessed, 1.45 mins- Understanding tools, techniques, methods and processes for technological solutions.
- Coursework - Developing technological solutions

Students have completed a piece of coursework in year 10. They now have the opportunity to embark on another piece of coursework to improve on their current grade. This must be completed in class with a December submission. Alongside this we will be consolidating topics for exams.

#### **External Assessment covering the following content:**

LO1: Understand the tools and techniques that can be used to initiate and plan solutions.

LO3: Understand how data and information can be collected, stored and used.

LO4: Understand the factors to be considered when collecting and processing data and storing data/information.

LO6: Understand the different methods of processing data and presenting information.

#### **Exam dates:**

- 13 January 2021
- Students will have a second opportunity to sit the exam on 14 May 2021

#### **Top Tips**

Look over the syllabus or your personal learning checklist and identify areas for revision. Can also use the consolidation PowerPoints from year 10.

Use index cards to summarise each topic, then use Read, Cover, Write, Check to see how much you remember.

Choose an element that you find difficult and teach it to a member of your family. Answer all of their questions – using your notes if you need to at the start.

Booster session will be invite only for PPE in November additional revision session will be on offer near the exams.
