 All players take starting stance as soon as they hit line.
 Go on first audible sound of signal.

III. 40 Series

Those plays evolving off of the Tailback (TB):

Play 41

First digit denotes back centered to; second digit denotes hole to hit. Hole numbering and player numbering the same.

IV. Pass Patterns

Course Rules

Divide - Depending on call of "Divide Right" or "Divide Left", outside potential receiver goes 7 yds. and cuts perpendicularly to sidelines. Second man in goes down and bananas out. Off-side potential receiver bananas to direction called.

Cross - Outside potential receiver on "On" side (side called) goes 7 yards and cuts diagonally in (cross pattern). Second man out on "On" side goes deep. Offside potential receiver down 10 yds. and out diagonally.

Hook - Outside potential receiver goes deep. Second man in hooks at 7 yards. Offside man goes deep.

Drag - Outside man to onside (side called) bananas in. Second man in goes down 7 yds. and out perpendicularly to the sidelines. Offside man drags at 5 yds to direction called.

* See diagrams of various calls from different formations on next page.

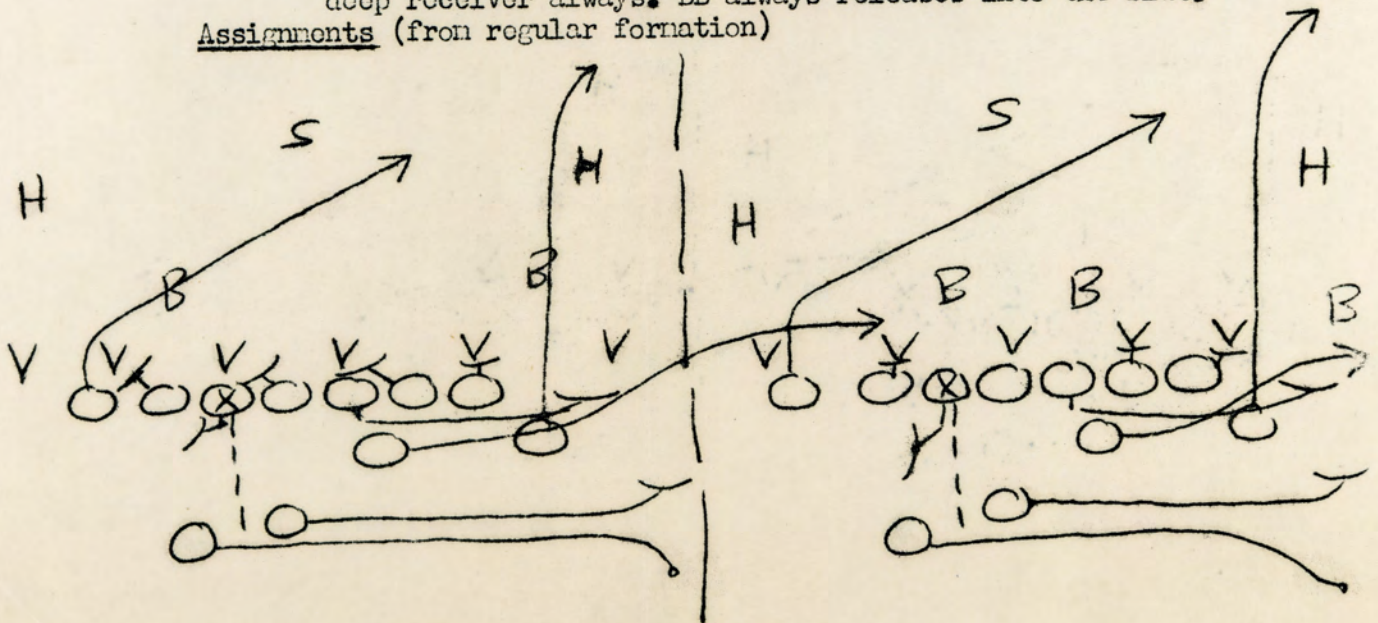

* These would be favored patterns from these formations,

V. 41 Pass

Designed to be an OPTION. Send three receivers down. # 8 always releases and goes diagonally. # 2 and # 1 : Depending on which is outside man, one goes on deep banana out course; the other blocks defensive tackle. Outside man releases as deep receiver always. BB always releases into the flat.

Assignments (from regular formation)

VI. Pass protection Blocking

For drop back passes:

Assignments

- # 3, # 4, # 5, # 7 Area blocking, responsible for man who enters your area. Do not leave area to get someone else.
- # 6 pulls to short side for defensive end.
- EB Covers behind # 5 and # 6,
- FB Steps to strong side to block defensive end or man who enters side area.
- TB Center leads slightly as on 40 series. Tb sets up behind # 5, steps up in pocket to throw.

Notes: On doubling formation, depending on direction designated in pass called, # 1 or BB will cover behind # 5.
 If FB Flanker were called, # 2 would be responsible for blocking defensive end from strong side.

VII. 30 Series

Those plays evolving off FB (half-spin)

Assignments

- # 1 leaves count early (center on "Hike", # 1 leaves on "Ready"), carries out good fake after passing FB.
 - BB same assignment as on 47 (7 hole play).
 - FB receives center on right knee, pivots off of right foot, keeping left foot planted. Keep football in arm pit during fake. Hit hole over # 6's (center's) left side.
 - TB leaves on snap for outside position on defensive end or corner man to short side, influence around end, go on downfield for block ahead of ball carrier.
- Line: same assignments as on all 7 hole plays (see 47).

Assignments

- # 1 Leaves count early, receives hand-off from EB, concealing ball for approx. five steps, then turn the corner as soon as you can.
 - BB same assignment as on 8 hole blocking, except unnecessary to cheat over.
 - FB receives center on right knee, pivots off of right foot, hold ball in palms at end, keeping elbows into body, let # 1 come take the ball from you. Fake into line between 4 & 5.
 - TB Leaves on snap and takes end in, driving body for opponent's far hip. One exception: If corner man, widest man, moves out rapidly, take him out. # 1 will cut to inside.
- Lines 8 hole blocking.

Play 31 Rootleg

Assignments

- # 1 Leaves count early, fakes hand-off.
- DB Same assignment as on 38.
- TB Same assignment as on 38.
- FB Fake hand off as on 37, keep ball on side (hip), move laterally after fake to right. Look for corner man's action and for own # 2 end. This play is an option: allow the reaction of the defense to dictate your choice, run or pass.
- # 2 release, hitting through defensive tackle, to 7 yds. and cut perpendicular to sidelines.
- # 3 Block head up, inside seam, or check block man covering # 4.
- # 4 Pull toward strong side, challenge first opponent that comes into area outside # 1's normal position.
- # 5 Take head up, inside seam, or head up on center.
- # 6 Take head up or fill.
- # 7 Take head up, outside seam, or outside gap.
- # 8 Release diagonally through safety for pool.

VIII. Power Series

Straight and quick hitting plays run directly over lineman whose number has been called.

- Rule: A. Lineman whose number has been called blocks to the right.
- B. Lineman to the immediate left of the number called blocks to his left, taking head up, inside seam (left seam).
- C. BB angles into hole taking first opponent encountered.

Note: The "number" may be called in the huddle or up on the line, depending upon the tendency of the defense to do a lot of shifting. If called on the line, the BB will make the call by barking a number as soon as every one is set on the line. In addition, the TB can also run the power series in the same fashion as the FB. The QB will simply call "Tailback Power Series" instead of "power Series".

IX. 60 Series

Evolving off of the FB and designed to achieve deception. FB makes full spin to strong side.

Play 64

Assignments

- FB receives center on left knee, spins in place with short, quick steps, holding ball in both palms, fakes to TB then pulls ball into gut and drives over hole in area between # 4 and # 5. No conscious effort is made to fake to # 1 as # 1 takes care of that as he passes FB.
- TB hesitates for snap to reach FB, then moves laterally, carries out exaggerated fake from FB.
- # 1 leaves on snap for path directly in front of FB position. Executes fake on passing FB and cuts into 7 hole.
- # 2 Man covering # 3, go through for BU. # 3 uncovered, step into defensive tackle and influence out, blocking end or corner man.
- # 3 Uncovered or man in inside seam, doubleteam in with # 4 (you are the power). Covered, step into opponent and influence, blocking next man out.
- # 4 covered or outside seam, post for # 3. Uncovered or inside seam, power with # 5.
- # 5 Uncovered or inside seam, take. Covered or outside seam, post for # 4.
- # 6 Covered, take. Uncovered, fill.
- # 7 pulls to strong side, traps next man after doubleteam. Angle into hole along line of scrimmage.
- # 8 Grab block on defensive tackle, as on 8 hole.
- BB perceive where doubleteam is to take place. Move straight ahead over # 5's right side, block nearest backer up.

Play 67

Assignments

- FB receives pass from center on left knee, fakes to TB on full spin, keeping ball in palms with elbows tucked into gut, gives to wingback by placing ball in # 1's stomach, folds arms after hand-off, fakes into line.
- TB fakes as on 64
- # 1 leaves on snap, path is through position directly in front of FB, takes ball with hands properly placed for hand-off, cuts directly up into 7 hole immediately after ball exchange.
- BB and rest of line: 7 hole blocking.

Play 61

Assignments

- FB receives center off left knee, spins and gives to TB, continues into line with fake.
- TB hesitates until FB receives snap, moves laterally to right to receive hand-off. Runs sweep pattern setting up BB's block on corner man.
- BB Corner man is now your responsibility.
- # 1 does not take 60 series move. Blocks regular 1 hole responsibility.
- Line: 1 hole blocking.
- * Note: 61 Option will also be run of this backfield maneuver.

X. Wedge

Designed for short yardage behind mass blocking.

*TB fakes run, pass, or quick kick.

- (1) # 2, # 3, # 4, # 7, # 6, converge on # 5. # 5 is apex of wedge.
- (2) # 1 and # 8 block defensive tackles on their respective sides to prevent quick penetration.
- (3) BB seals over # 5's tail to # 6.
- (4) FB receives soft center, drives straight ahead. When wall stops moving, lunge for extra yardage.
