Dear Families and Students,

Victor Valley Union High School District would like to introduce our new partnership with *FEV Tutor, Inc.* As a district, we are determined to provide your students with the support they need to succeed in our current distance learning environment. We have selected FEV Tutor because they can provide a flexible and in-person support system beyond the time your student's teachers are available to help them while they are doing their classwork and homework beyond the regular school day.

- FEV Tutor's personalized tutoring services are meant to be an extension of the student's teacher, without any of the time or resource constraints of the traditional classroom
- FEV Tutor provides students with a live online tutor that has the tools to fit the needs of the individual student.
- FEV Tutor's live, virtual platform allows students to work with a qualified tutor during the school day, after school, on weekends, or anywhere in between.
- Tutoring is available in Math, English, Science, and Social Studies.
- FEV tutors are professionals and have a minimum of a 4-year bachelor degree in their content area, a minimum of 2 years teaching/tutoring experience, and go through an extensive training "boot camp" on the nuances of working in an online tutoring atmosphere.
- FEV tutor will collect formative data on student progress on a weekly basis and continually share these updates with teachers, administrators and families.
- Students can access FEV Tutor Dashboard through their **ClassLink** Launchpad.

Please see the attached flyers from FEV Tutor in English and Spanish for more information.
