All take-home meal kits meet Connecticut Healthy Food Certification standards containing breakfast and lunch entrees and assorted side dishes, featuring healthy whole grains and quality proteins. A variety of fruits and vegetables, juices and milk are also provided.

Menus each week are determined not only by the layout and staffing of the school kitchens but also by the availability of products from our vendors, who also face challenges due to the pandemic.

Below are some of the selections that you might find in your child's take-home bag. Contents may vary.
