

THE 4 GOAL AREAS: PSESD EARLY LEARNING

LONG-TERM OUTCOME: By 2022, at least 85% of *children of color* served by PSESD EL Program will meet school readiness standards for development, health and wellness.

Planning System Goal:

PSESD's internal Early Learning Program staff will meaningfully engage families, subcontractor staff, and community partners in the planning process to achieve racially equitable systems for providing high-quality services to children and families.

Professional Development and Learning System Goal:

PSESD Early Learning Program provides coaching, training, & technical assistance to internal and direct service staff to ensure culturally & linguistically responsive delivery of education and health & nutrition curricula, and services to families.

System-Level Continuous Improvement Goal:

PSESD Early Learning Program regularly assesses system-level work and supports (including professional learning, communication, data use, monitoring, & health/nutrition/safety) to prenatal to 5 direct services to ensure appropriate structures and allotment of effort and fiscal resources.

Increasing Enrollment of Children and Families of Color Goal:

PSESD Early Learning Program uses data to increase enrollment of children of color and children impacted by the opportunity gap, including children with disabilities, experiencing homelessness, and/or foster children in communities we serve.
