Your summary of benefits

Notes:

- This Summary of Benefits has been updated to comply with federal and state requirements, including applicable provisions of the recently enacted federal health care reform laws. As we receive additional guidance and clarification on the new health care reform laws from the U.S. Department of Health and Human Services, Department of Labor and Internal Revenue Service, we may be required to make additional changes to this Summary of Benefits.
- The family deductible and out-of-pocket maximum are embedded meaning the cost shares of one family member will be applied to the individual deductible and individual out-of-pocket maximum; in addition, amounts for all family members apply to the family deductible and family out-of-pocket maximum. No one member will pay more than the individual deductible and individual out-of-pocket maximum.
- All medical services subject to a copay and coinsurance are also subject to the annual medical deductible.
- Annual Out-of-Pocket Maximums includes deductible, copays, and coinsurance.
- In-network and out-of-network out of pocket maximums are exclusive of each other (i.e. non-emergency out-of-network expenses do not apply to the in-network out of pocket maximum).
- Any copays and coinsurance you make for covered services and supplies provided by a *non-participating provider*, except emergency services and supplies, will not be applied toward the satisfaction of your Out-of-Pocket amount. In addition, you will be required to continue to pay your copayment and/or coinsurance for such services even after you have reached that amount.
- For plans with an office visit copay, the copay applies to the actual office visit and additional cost shares may apply for any other service performed in the office (i.e., X-ray, lab, surgery), after any applicable deductible.
- Preventive Care Services includes physical exam, preventive screenings (including screenings for cancer, HPV, diabetes, cholesterol, blood pressure, hearing and vision, immunization, health education, intervention services, HIV testing) and additional preventive care for women provided for in the guidance supported by Health Resources and Service Administration.
- For Medical Emergency care rendered by a Non-Participating Provider or Non-Contracting Hospital, reimbursement is based on the maximum allowed amount. Members may be responsible for any amount in excess of the maximum allowed amount.
- If your plan includes an emergency room facility copay and you are directly admitted to a hospital, your emergency room facility copay is waived.
- If your plan includes out of network benefit and you use a non-network provider, you are responsible for any difference between the covered expense and the actual non-participating providers charge.
- Non-emergency, out-of-network air ambulance services are limited to Anthem maximum payment of \$50,000 per trip.
- Certain services are subject to the utilization review program. Before scheduling services, the member must make sure utilization review is obtained. If utilization review is not obtained, benefits may be reduced or not paid, according to the plan.
- Additional visits maybe authorized if medically necessary. Pre-service review must be obtained prior to receiving the additional services.
- If your plan includes out of network benefits, all services with calendar/plan year visit limits are combined both in and out of network, except if otherwise noted.
- Transplants covered only when performed at Centers of Medical Excellence or Blue Distinction Centers.
