GENERAL DIPLOMA

To graduate with less than a Core 40 diploma in 2016 or later, the following formal opt-out process must be completed:

- The student, the student's parent/guardian, and the student's counselor meet to discuss the student's progress.
- The student's Graduation Plan (including four year course plan) is reviewed.
- The student's parent/guardian determines whether the student will achieve greater educational benefits by completing the general curriculum or the Core 40 curriculum.
- If the decision is made to opt-out of Core 40, the student is required to complete the course and credit requirements for a general diploma and the career/academic sequence the student will pursue is determined.

GRADUATION QUALIFYING EXAMS

For the class of 2022 and earlier, to receive a diploma in the state of Indiana, students must demonstrate mastery of the academic standards assessed by the Graduation Qualifying Exam (GQE). The GQE requires students to take and pass the Grade 10 ISTEP+ in English/Language Arts and Mathematics. Indiana students are also required to participate in the ISTEP Science assessment, but the Science assessment is not part of the graduation exam requirement.

Indiana's GQE/ISTEP+ examination graduation requirement can be met in three ways:

1. Pass the GQE ISTEP+ Grade 10 in Math and English for the graduating class of 2022 and earlier; or
2. Fulfill the requirements for the GQE "Evidence-based" Waiver, or
3. Fulfill the requirements for a GQE "Work-readiness" Waiver

GQE "Evidence-based" Waiver

A student who does not achieve a passing score on the GQE may be eligible to graduate if the student does all of the following:

1. Takes the graduation examination in each subject area in which the student did not achieve a passing score at least one time every school year after the school year in which the student first took the GQE.
2. Completes required remediation opportunities provided to the student by Carmel High School.
3. Maintains a school attendance rate of at least ninety-five percent (95%). (Excused absences are not counted against a student's attendance rate.)
4. Maintains at least a "C" average in the courses specifically required for graduation by rule of the Indiana Board of Education.
5. Satisfies all state and local graduation requirements.
6. Obtains a written recommendation from a teacher in each subject area in which the student has not achieved a passing score on the GQE. The written recommendation must be supported by documentation that the academic standards have been met, either through other tests or classroom work, and must be agreed upon by the principal.

GQE "Work Readiness" Waiver

A student who does not achieve a passing score on the GQE may be eligible to graduate if the student does all of the following:

1. Takes the GQE in each subject area in which the student did not achieve a passing score at least one time every school year after the school year in which the student first takes the GQE.
2. Completes required remediation opportunities provided to the student by Carmel High School.
3. Maintains a school attendance rate of at least ninety-five percent (95%). (Excused absences are not counted against a student's attendance rate.)
4. Maintains at least a "C" average in the courses specifically required for graduation by rule of the Indiana Board of Education.
5. Satisfies all state and local graduation requirements.
6. Completes all of the following:
 - The course and credit requirements for a general diploma, including the career academic sequence;
 - A workforce readiness assessment; and
 - Complete at least one industry certification from the state board's approved industry certification list, which must be updated annually with recommendations from the department of workforce development established by IC 22-4.1-2-1/ (This requirement is effective with students in the class of 2017.)

Students who meet all of Carmel High School's graduation requirements but who fail to pass the ISTEP/GQE and are denied a waiver will be awarded a Certificate of Coursework Completion.
