

NOTE:

CDC now defines “close contact” as someone who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period.

Please review these questions to prepare for school on a daily basis:

When can I return to school if I have had a possible exposure to Covid-19?

*Answer: If it has been 14 days since exposure to someone with Covid-19 and the exposed person has not developed symptoms or tested positive, your student may return.
(*NOTE- symptoms may appear 2 to 14 days from time of exposure)*

When can I return to school if I have tested positive for Covid-19?

*Answer:
A student may return once hitting the 10 day mark from the time of the symptom presentation, being fever free for at least 24 hours without fever reducing medications, and no longer symptomatic.*

What if I have symptoms of Covid-19 without testing?

*Answer:
Your child may return if it has been at least 10 days since symptoms first appeared, fever free for at least 24 hours without fever reducing medications, and no longer symptomatic.*

Please note what possible Covid-19 symptoms may include below. Be sure to screen your child PRIOR to arrival for campus drop-off for the following:

- Fever or chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea
- New loss of taste or smell
