

October Community Council Minutes

We reviewed council rules and responsibilities. Current year SIP goals were presented. The reading goal was approved. The math goal was discussed further. The council collaborated on specifics of what the goal entails. Teachers talked about the 8 mathematical habits. Those will be sent out to the council and will be the focus. Teachers discussed the SEL of their students. Is there money to create larger SEL posters? We can look into this. It was decided we will post Shannon's SEL posters of the month in the school newsletter. Teachers discussed blended learning in their classroom and the technology goal was approved. Action steps of the SIP goals will be sent to the council.

Council will meet Wednesday nights at 5:30 via zoom. Next meeting will be Nov. 11.

Meeting Dates:

November 11

January 13

February 10

March 10
