Ana started the meeting out with an ice breaker the ice breaker question was "if you can walk in anyone else's shoes for a day who would it be?" We then started the meeting out with talking about how we can become more of a community during these times. already the teachers and staff did a popsicle parade, then painted kindness rocks were put around the neighborhood for students to find. some ideas were zoom home visits with students and teachers, another idea was candy bags given out during lunch time for Halloween but a police station may be doing that very thing, we were told that if we have any ideas to email ana.

we then talked about kids cafe dinners and how we can pick up dinners for all kids every Wednesday.

next we went over computer safety and couple of the filters the district has put in place for computers for example iBoss but there are different types of filters for secondary schools.

we spoke about the success we are having with interventions for the kids and how the kids have been doing great and have been given all the materials needed.
