#### Philosophy

# Success stories and future stars

We are proud to have 31 players representing Millfield in Performance Centres with five students involved in National Age groups this season

"Since joining Millfield I have had an opportunity to develop my hockey considerably. The individual support I have received on the hockey pitch and in the gym has enabled me to play at my very best. Representing the England U18s has been fantastic but the experience gained by playing Premier League hockey for Clifton & Robinson's HC and the Millfield 1st XI has been just as special. I am grateful for all the opportunities I have had and for Mr Keates' guidance through it all."
