FINE  
ARTS

NEWSLETTER  
SEPTEMBER

Meghan Fay

Welcome to the Arts Department for the Fall of 2020!

We have settled in as a group to our well planned classrooms where students are equipped with their own bins of personal materials. Making art - being creative - expressing ourselves - all of these things are so important in times of stress. We hope to create an environment where Solebury's art students can unwind and create their best work.

~

Fall is also a busy time for college applications so we are also gearing up to help students prepare their art portfolios not only for art schools but for any program where students want to showcase their talent in the arts.

2020

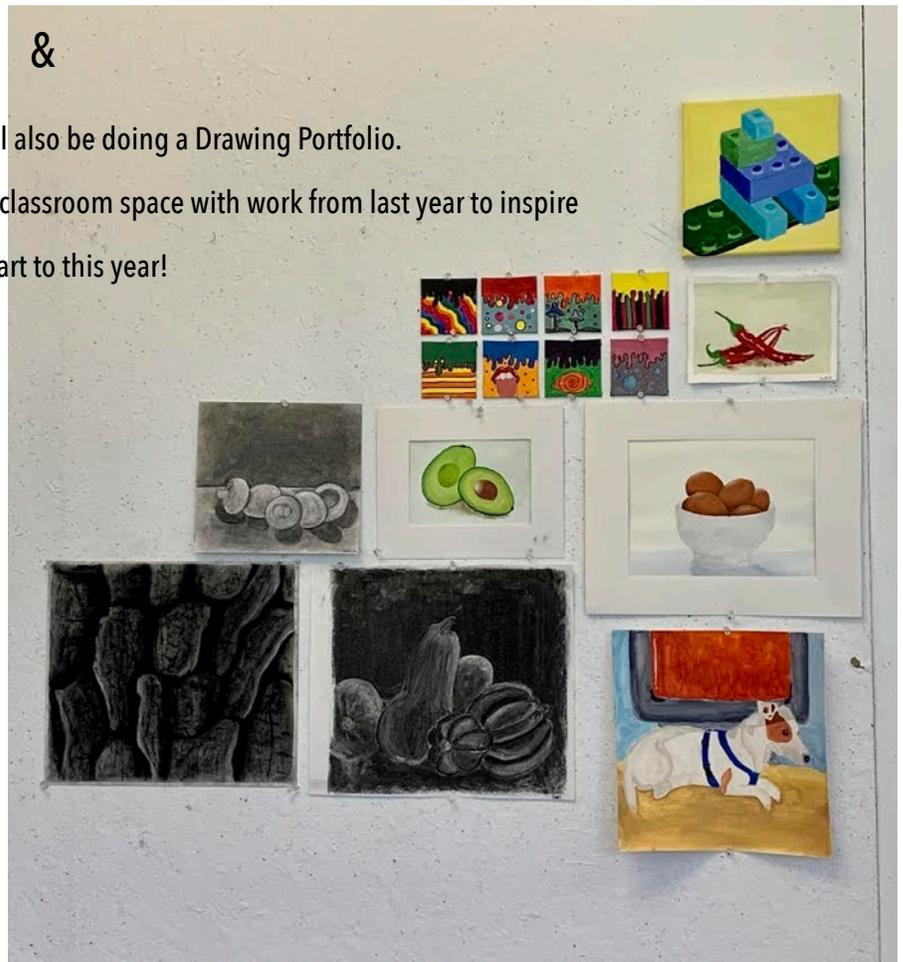

We have two AP Art students this year: **Charlotte Davis-Hup** (above), a senior who will be doing her Drawing Portfolio

&

**Soleil Yax**, a junior who will also be doing a Drawing Portfolio.

They recently took over the boards in their classroom space with work from last year to inspire their start to this year!

Students in Intermediate and Advanced Painting & Drawing have started the year working on strengthening their COMPOSITIONS by creating images that feel like they are close up resulting in unusual and at times abstract worlds.

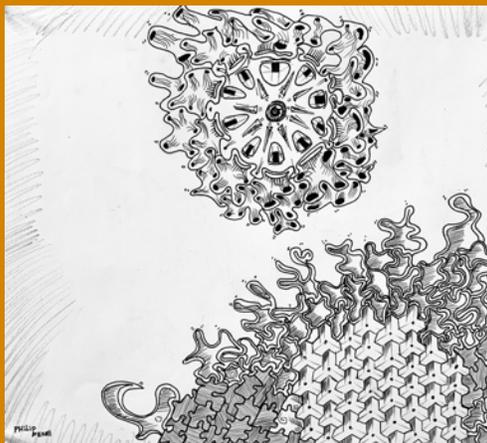

Understanding composition is one of the most important considerations when creating a piece of two dimensional art. If your composition isn't strong, then your work isn't strong. Even if you have a full range of value, your proportions are correct, and you've used the medium expertly- if your composition is poorly planned and executed, then your final piece will not be engaging for your viewer.

# BOOKMAKING

Book making is exploring the basic book structures with small practice books, that are works of art in their own right. Next the fun begins as we start creating complex designs that are only limited by our imagination... stay tuned.
