Grundy County Announces Local Drive-through Testing

MORRIS, IL – The Grundy County Health Department announces upcoming opportunities at which IDPH is sponsoring a drive-through COVID-19 test site.

Local health departments have coordinated with the IL Department of Public Health to provide a mobile unit locally. Testing will be offered to anyone – regardless of symptoms or asymptomatic – by way of a nasal swab. Results will be available 4-7 days after specimen collection. Residents of any county are invited to any site, and testing is free.

The mobile testing unit will be available:

Sunday, November 15
9:00am – 5:00pm
Minooka High School – Central Campus
301 S Wabena Ave
Minooka

IDPH plans to dispatch a mobile unit regardless of weather conditions, but the site manager may choose to hold off on opening or decide to close early if weather becomes too concerning.

It is important to note that host sites are determined based on ease for public access, and are not related to a specific outbreak. Rather, school or local officials have cooperated to provide ample space for anticipated traffic.

BOARD OF HEALTH
