

Favorite Book Scene Build

Your Master Builder challenge is to **build a scene from one of your favorite books.**

STEPS:

1. Think about some of your favorite books and the characters from those books.
2. Picture some of your favorite scenes from the book.
3. Get creative – your Lego scene does not have to be from a picture in your book. Feel free to use your imagination to create something different.
4. Sketch out a picture of what scene from your book that you would like to build with your Legos.
5. Think about how you could build this scene using Lego bricks?
6. Get building!

At our club meeting next week, you will be asked to share your build with the other participants. Other students will get a chance to guess at what book your build/character is from. Once they guess, or we have ~ 3 attempts to guess, you will be asked to talk about your build, describing it for the rest of the group. You will have 1-2 minutes to describe what your **Favorite Book Scene** Master Build. Remember, we need to respect everyone during their presentation by being silent during presentations.

See you next week!
