MAXIMIZE YOUR EXPERIENCE

Prepare for the conference by using the latest versions of **Google Chrome** or **Mozilla Firefox** on your laptop or computer. Sometimes, third-party extensions can affect the experience by blocking some of the Hopin interface elements. That's why we also recommend opening the event in Incognito mode (command+Shift+N on macOS or Ctrl+Shift+N on Windows) on Chrome or Private tab (command+Shift+P for macOS or Ctrl+Shift+P for Windows) on Firefox.
On mobile devices the experience will be limited for event attendees. In case the mobile device is the only one you have, please make sure to use Safari on iOS and Google Chrome on Android.
