

Dear BSD Community,

As the District announced on October 19, we plan to continue Comprehensive Distance Learning (CDL) for grades Pre-K-12 at least until the end of the first semester.

As we look at various models, it's important that we have a sense of how many students would participate in Limited In-Person Instruction (LIPI) prior to the end of the first semester (if offered), how many students would return in a Hybrid Model in the second semester (if offered), and how many students would elect to continue in CDL. As a reminder, the District has guaranteed access to CDL for the entire 2020-21 school year.

Please know that in a LIPI or Hybrid Model, the District would follow all state-required safety protocols including face coverings for all staff and students, social distancing of six feet and reduced classroom capacity to ensure 35 square feet per child. Also, please know that regardless of your choice, Nutrition Services will continue to serve meals to all students — whether in Hybrid or CDL.

To help us plan, please answer the following questions. If you have multiple children, please complete one survey per student.

1) What school does your student attend

2) What grade is your student in?

3) Does your student receive Special Education services?

- No
- Yes

4) Does your student receive English Language Development services?

- No
- Yes

5) Does your student receive Free or Reduced Meal services?

- No
- Yes

6) If your student was eligible for Limited In-Person Instruction (LIPI) or if the district implements a Hybrid Model during the second semester, would you send your student to school for in-person instruction.

- No, I would not send my student for in-person instruction.
- Yes, I would consider sending my student to school for in-person instruction.

7) If your student was eligible for Limited In-Person Instruction, your student would only receive a maximum of 2 hours of instruction (per current state guidelines) with a varying schedule from 1-5 days per week. Given this information, would you send your student back to school for Limited In-Person Instruction?

- No, I would not send my student for Limited In-Person Instruction.
- Yes, I would consider sending my student to school for Limited In-Person Instruction.

8) If your child would receive less teacher-directed instructional time overall, would you send your student back to school to receive Limited In-Person Instruction?

- No, I would not send my student for Limited In-Person Instruction.
- Yes, I would consider sending my student to school for Limited In-Person Instruction.

9) If your child would have a different teacher as a result of participating in Limited In-Person Instruction, would you send your student back to school to receive Limited In-Person Instruction?

- No, I would not send my student for Limited In-Person Instruction.
- Yes, I would consider sending my student to school for Limited In-Person Instruction.

10) If your child would receive less teacher-directed instructional time overall in a Hybrid Model, would you send your student back to school in a Hybrid Model?

- No, I would not send my student back to school in a Hybrid Model.
- Yes, I would consider sending my student to school in a Hybrid Model.

11) If your child would have a different teacher as a result of returning in a Hybrid Model, would you send your student back to school in a Hybrid Model?

- No, I would not send my student back to school in a Hybrid Model.
- Yes, I would consider sending my student to school in a Hybrid Model.

12) Transportation will be available for Limited In-Person Instruction and any Hybrid Model. Routes will run at reduced capacity with appropriate social distancing. If your student attends in-person school, will they use the bus service? (This information is important as we determine the number of cohorts that each student can be a part of.)

- No, my student will not ride the school bus.
- Yes, my student will ride the school bus.
- Maybe

13) You indicated that you would not send your student to school for in-person instruction. In order to develop a Return-to-School Plan for all students, please let us know all the reasons for your decision.

- I am concerned about the health and safety of my student.
- I do not think the school district can enforce all health and safety measures to prevent the spread of COVID-19.
- There is someone in our household or someone we care for that is at high risk for contracting COVID-19.
- Our family requires a consistent daily schedule.
- There is not currently a COVID-19 vaccine.

Thank you for your participation.
